Occupational Employment and Wages in Cleveland-Elyria — May 2018

Workers in the Cleveland-Elyria Metropolitan Statistical Area had an average (mean) hourly wage of \$24.27 in May 2018, about 3 percent below the nationwide average of \$24.98, according to the U.S. Bureau of Labor Statistics. Assistant Commissioner for Regional Operations Charlene Peiffer noted that, after testing for statistical significance, wages in the local area were lower than their respective national averages in 14 of the 22 major occupational groups including legal; computer and mathematical; and arts, design, entertainment, sports, and media. One occupational group—construction and extraction—had an average wage that was significantly higher than its respective national average.

When compared to the nationwide distribution, local employment was more highly concentrated in 7 of the 22 occupational groups, including production, healthcare practitioners and technical, and office and administrative support. Conversely, 10 groups had employment shares significantly below their national representation, including construction and extraction, transportation and material moving, and personal care and service. (See [table A](#) and [box note](#) at end of release.)

Table A. Occupational employment and wages by major occupational group, United States and the Cleveland-Elyria Metropolitan Statistical Area, and measures of statistical significance, May 2018

Major occupational group	Percent of total employment		Mean hourly wage		
	United States	Cleveland	United States	Cleveland	Percent difference ⁽¹⁾
Total, all occupations	100.0	100.0	\$24.98	\$24.27*	-3
Management	5.3	4.6*	58.44	56.32*	-4
Business and financial operations	5.3	5.8*	36.98	35.68*	-4
Computer and mathematical	3.0	3.0	44.01	36.42*	-17
Architecture and engineering	1.8	1.6*	42.01	39.00*	-7
Life, physical, and social science	0.8	0.8	36.62	30.61*	-16
Community and social service	1.5	1.5	23.69	22.33*	-6
Legal	0.8	0.9*	52.25	43.09*	-18
Education, training, and library	6.1	5.5*	27.22	27.29	0
Arts, design, entertainment, sports, and media	1.3	1.3	28.74	22.72*	-21
Healthcare practitioners and technical	6.0	7.2*	39.42	40.54	3
Healthcare support	2.8	3.4*	15.57	14.59*	-6
Protective service	2.4	2.6*	23.36	21.02*	-10
Food preparation and serving related	9.2	8.7*	12.30	11.59*	-6
Building and grounds cleaning and maintenance	3.1	3.0	14.43	14.02	-3
Personal care and service	3.8	3.1*	13.51	12.58*	-7
Sales and related	10.0	9.6*	20.09	20.94	4
Office and administrative support	15.1	15.7*	18.75	18.59	-1
Farming, fishing, and forestry	0.3	(2)*	14.49	13.50	-7
Construction and extraction	4.1	3.1*	24.62	25.87*	5
Installation, maintenance, and repair	3.9	3.5*	23.54	22.99*	-2

Note: See footnotes at end of table.

Table A. Occupational employment and wages by major occupational group, United States and the Cleveland-Elyria Metropolitan Statistical Area, and measures of statistical significance, May 2018 - Continued

Major occupational group	Percent of total employment		Mean hourly wage		
	United States	Cleveland	United States	Cleveland	Percent difference ⁽¹⁾
Production	6.3	8.8*	18.84	18.94	1
Transportation and material moving	7.1	6.1*	18.41	17.54*	-5

Footnotes:

(1) A positive percent difference measures how much the mean wage in the Cleveland-Elyria Metropolitan Statistical Area is above the national mean wage, while a negative difference reflects a lower wage.

(2) Indicates a value of less than 0.05 percent.

* The mean hourly wage or percent share of employment is significantly different from the national average of all areas at the 90-percent confidence level.

One occupational group—production—was chosen to illustrate the diversity of data available for any of the 22 major occupational categories. Cleveland-Elyria had 91,630 jobs in production, accounting for 8.8 percent of local area employment, significantly higher than the 6.3-percent share nationally. The average hourly wage for this occupational group locally was \$18.94, compared to the national wage of \$18.84.

Some of the larger detailed occupations within the production group included assemblers and fabricators, all other, including team assemblers (12,090); inspectors, testers, sorters, samplers, and weighers (6,380); and first-line supervisors of production and operating workers (6,030). Among the higher-paying jobs in this group were power plant operators and power distributors and dispatchers, with mean hourly wages of \$38.32 and \$34.61, respectively. At the lower end of the wage scale were laundry and dry-cleaning workers (\$11.47) and pressers, textile, garment, and related materials (\$12.00). (Detailed data for the production occupations are presented in [table 1](#); for a complete listing of detailed occupations available go to www.bls.gov/oes/current/oes_17460.htm.)

Location quotients allow us to explore the occupational make-up of a metropolitan area by comparing the composition of jobs in an area relative to the national average. (See [table 1](#).) For example, a location quotient of 2.0 indicates that an occupation accounts for twice the share of employment in the area than it does nationally. In the Cleveland-Elyria Metropolitan Statistical Area, above-average concentrations of employment were found in many of the occupations within the production group. For instance, foundry mold and coremakers were employed at 8.0 times the national rate in Cleveland, and milling and planing machine setters, operators, and tenders, metal and plastic, at 6.9 times the U.S. average. On the other hand, paper goods machine setters, operators, and tenders had a location quotient of 1.0 in Cleveland, indicating that this particular occupation's local and national employment shares were similar.

These statistics are from the Occupational Employment Statistics (OES) survey, a federal-state cooperative program between BLS and State Workforce Agencies, in this case, the Ohio Department of Job & Family Services.

Area Changes to the May 2018 Occupational Employment Statistics (OES)

OES continues to publish data for metropolitan and nonmetropolitan areas that cover the full geography of the United States. However, the level of detail available has decreased.

OES no longer publishes data for metropolitan divisions. Data for the 11 large metropolitan areas that contain divisions are now available at the Metropolitan Statistical Area (MSA) or New England City and Town Area (NECTA) level only.

In addition, some smaller nonmetropolitan areas have been combined to form larger nonmetropolitan areas. The May 2018 OES estimates contain data for 134 nonmetropolitan areas, compared with 167 nonmetropolitan areas in the May 2017 estimates.

More information on these area changes is available at www.bls.gov/oes/areas_2018.htm.

Implementing the 2018 Standard Occupational Classification (SOC) System

The OES program plans to begin implementing the 2018 Standard Occupational Classification (SOC) system with the May 2019 estimates, to be released by early April of 2020. Because each set of OES estimates is produced by combining three years of survey data, estimates for May 2019 and May 2020 will be based on a combination of survey data collected under the 2010 SOC and data collected under the 2018 SOC, and will use a hybrid of the two classification systems. The May 2021 OES estimates, to be released by early April of 2022, will be the first set of estimates based fully on the 2018 SOC. For more information, please see www.bls.gov/oes/soc_2018.htm.

Technical Note

The Occupational Employment Statistics (OES) survey is a semiannual survey measuring occupational employment and wage rates for wage and salary workers in nonfarm establishments in the United States. The OES data available from BLS include cross-industry occupational employment and wage estimates for the nation; over 580 areas, including states and the District of Columbia, metropolitan statistical areas (MSAs), nonmetropolitan areas, and territories; national industry-specific estimates at the NAICS sector, 3-digit, most 4-digit, and selected 5- and 6-digit industry levels, and national estimates by ownership across all industries and for schools and hospitals. OES data are available at www.bls.gov/oes/tables.htm.

The OES survey is a cooperative effort between BLS and the State Workforce Agencies (SWAs). BLS funds the survey and provides the procedures and technical support, while the State Workforce Agencies collect most of the data. OES estimates are constructed from a sample of about 1.2 million establishments. Each year, two semiannual panels of approximately 180,000 to 200,000 sampled establishments are contacted, one panel in May and the other in November. Responses are obtained by mail, Internet or other electronic means, email, telephone, or personal visit. The May 2018 estimates are based on responses from six semiannual panels collected over a 3-year period: May 2018, November 2017, May 2017, November 2016, May 2016, and November 2015. The unweighted sample employment of 83 million across all six semiannual panels represents approximately 58 percent of total national employment. The overall national response rate for the six panels, based on the 50 states and the District of Columbia, is 71 percent based on establishments and 68

percent based on weighted sampled employment. The sample in the Cleveland-Elyria Metropolitan Statistical Area included 5,299 establishments with a response rate of 74 percent. For more information about OES concepts and methodology, go to www.bls.gov/oes/current/oes_tec.htm.

A value that is statistically different from another does not necessarily mean that the difference has economic or practical significance. Statistical significance is concerned with the ability to make confident statements about a universe based on a sample. It is entirely possible that a large difference between two values is not significantly different statistically, while a small difference is, since both the size and heterogeneity of the sample affect the relative error of the data being tested.

The May 2018 OES estimates are based on the 2010 Standard Occupational Classification (SOC) system and the 2017 North American Industry Classification System (NAICS). Information about the 2010 SOC is available on the BLS website at www.bls.gov/soc and information about the 2017 NAICS is available at www.bls.gov/bls/naics.htm.

Metropolitan area definitions

The substate area data published in this release reflect the standards and definitions established by the U.S. Office of Management and Budget.

The **Cleveland-Elyria, OH Metropolitan Statistical Area** includes Cuyahoga, Geauga, Lake, Lorain, and Medina Counties.

Additional information

OES data are available on our regional web page at www.bls.gov/regions/midwest. Answers to frequently asked questions about the OES data are available at www.bls.gov/oes/oes_ques.htm. Detailed technical information about the OES survey is available in our Survey Methods and Reliability Statement on the BLS website at www.bls.gov/oes/current/methods_statement.pdf.

Information in this release will be made available to sensory impaired individuals upon request . Voice phone: (202) 691-5200; Federal Relay Service: (800) 877-8339.

Table 1. Employment and wage data from the Occupational Employment Statistics survey, by occupation, Cleveland-Elyria Metropolitan Statistical Area, May 2018

Occupation ⁽¹⁾	Employment		Mean wages	
	Level ⁽²⁾	Location quotient ⁽³⁾	Hourly	Annual ⁽⁴⁾
Production occupations	91,630	1.4	\$18.94	\$39,390
First-line supervisors of production and operating workers	6,030	1.4	30.78	64,020
Coil winders, tapers, and finishers	240	2.8	19.27	40,090
Electrical, electronic, and electromechanical assemblers, except coil winders, tapers, and finishers	2,070	1.1	16.31	33,930
Engine and other machine assemblers	1,670	4.8	24.92	51,840
Structural metal fabricators and fitters	610	1.1	18.86	39,230
Fiberglass laminators and fabricators	60	0.4	14.42	29,990
Assemblers and fabricators, all other, including team assemblers	12,090	1.3	16.28	33,850
Bakers	1,480	1.2	13.49	28,060
Butchers and meat cutters	670	0.7	18.69	38,870
Meat, poultry, and fish cutters and trimmers	130	0.1	12.89	26,820
Slaughterers and meat packers	(5)	(5)	12.50	26,000
Food batchmakers	460	0.4	15.29	31,810
Food cooking machine operators and tenders	130	0.6	13.40	27,870
Food processing workers, all other	100	0.3	12.75	26,510
Computer-controlled machine tool operators, metal and plastic	3,300	3.1	20.58	42,800
Computer numerically controlled machine tool programmers, metal and plastic	630	3.7	24.56	51,080
Extruding and drawing machine setters, operators, and tenders, metal and plastic	1,110	2.1	15.94	33,160
Forging machine setters, operators, and tenders, metal and plastic	400	3.0	19.80	41,190
Rolling machine setters, operators, and tenders, metal and plastic	640	3.4	19.94	41,470
Cutting, punching, and press machine setters, operators, and tenders, metal and plastic	4,060	3.0	19.32	40,180
Drilling and boring machine tool setters, operators, and tenders, metal and plastic	(5)	(5)	22.72	47,270
Grinding, lapping, polishing, and buffing machine tool setters, operators, and tenders, metal and plastic	1,790	3.5	17.50	36,400
Lathe and turning machine tool setters, operators, and tenders, metal and plastic	880	4.2	19.59	40,760
Milling and planing machine setters, operators, and tenders, metal and plastic	960	6.9	23.41	48,690
Machinists	5,740	2.1	19.36	40,270
Metal-refining furnace operators and tenders	380	3.0	15.74	32,740
Pourers and casters, metal	40	0.7	18.39	38,250
Model makers, metal and plastic	(5)	(5)	24.49	50,940
Foundry mold and coremakers	890	8.0	14.95	31,100
Molding, coremaking, and casting machine setters, operators, and tenders, metal and plastic	2,950	2.5	15.51	32,270
Multiple machine tool setters, operators, and tenders, metal and plastic	2,840	3.0	16.43	34,170
Tool and die makers	1,370	2.6	25.95	53,970
Welders, cutters, solderers, and brazers	2,530	0.9	19.68	40,920
Welding, soldering, and brazing machine setters, operators, and tenders	440	1.8	17.89	37,200
Heat treating equipment setters, operators, and tenders, metal and plastic	290	2.1	16.57	34,460
Plating and coating machine setters, operators, and tenders, metal and plastic	1,200	4.2	15.15	31,520
Tool grinders, filers, and sharpeners	(5)	(5)	20.10	41,800
Metal workers and plastic workers, all other	(5)	(5)	16.77	34,880
Prepress technicians and workers	400	1.9	19.75	41,090
Printing press operators	1,640	1.3	17.84	37,100
Print binding and finishing workers	350	1.1	14.54	30,250

Note: See footnotes at end of table.

Table 1. Employment and wage data from the Occupational Employment Statistics survey, by occupation, Cleveland-Elyria Metropolitan Statistical Area, May 2018 - Continued

Occupation ⁽¹⁾	Employment		Mean wages	
	Level ⁽²⁾	Location quotient ⁽³⁾	Hourly	Annual ⁽⁴⁾
Laundry and dry-cleaning workers	1,110	0.7	11.47	23,850
Pressers, textile, garment, and related materials	370	1.3	12.00	24,950
Sewing machine operators	850	0.9	12.26	25,490
Tailors, dressmakers, and custom sewers	(5)	(5)	18.36	38,190
Textile cutting machine setters, operators, and tenders ..	(5)	(5)	16.08	33,450
Upholsterers	(5)	(5)	19.85	41,290
Cabinetmakers and bench carpenters	660	0.9	20.16	41,920
Furniture finishers	(5)	(5)	15.25	31,720
Sawing machine setters, operators, and tenders, wood ..	(5)	(5)	13.86	28,820
Woodworking machine setters, operators, and tenders, except sawing	600	1.1	17.94	37,320
Power distributors and dispatchers	120	1.5	34.61	72,000
Power plant operators	(5)	(5)	38.32	79,700
Stationary engineers and boiler operators	260	1.1	28.65	59,580
Water and wastewater treatment plant and system operators	670	0.8	25.94	53,960
Chemical plant and system operators	160	0.8	26.67	55,480
Petroleum pump system operators, refinery operators, and gaugers	40	0.1	31.42	65,350
Plant and system operators, all other	(5)	(5)	26.16	54,410
Chemical equipment operators and tenders	1,730	2.9	22.54	46,880
Separating, filtering, clarifying, precipitating, and still machine setters, operators, and tenders	110	0.3	21.09	43,880
Crushing, grinding, and polishing machine setters, operators, and tenders	330	1.4	16.22	33,740
Grinding and polishing workers, hand	(5)	(5)	15.27	31,760
Mixing and blending machine setters, operators, and tenders	1,710	1.9	18.49	38,450
Cutters and trimmers, hand	60	0.8	12.23	25,440
Cutting and slicing machine setters, operators, and tenders	600	1.4	16.80	34,950
Extruding, forming, pressing, and compacting machine setters, operators, and tenders	1,010	1.9	14.46	30,070
Furnace, kiln, oven, drier, and kettle operators and tenders	80	0.6	17.51	36,410
Inspectors, testers, sorters, samplers, and weighers	6,380	1.6	20.95	43,580
Jewelers and precious stone and metal workers	(5)	(5)	14.56	30,290
Dental laboratory technicians	360	1.5	20.81	43,290
Medical appliance technicians	220	2.1	19.29	40,130
Ophthalmic laboratory technicians	230	1.2	18.55	38,580
Packaging and filling machine operators and tenders	2,370	0.8	14.19	29,520
Coating, painting, and spraying machine setters, operators, and tenders	1,200	1.9	19.36	40,260
Painters, transportation equipment	140	0.4	20.49	42,620
Photographic process workers and processing machine operators	100	0.8	17.89	37,210
Adhesive bonding machine operators and tenders	180	1.6	15.60	32,450
Cleaning, washing, and metal pickling equipment operators and tenders	280	2.3	14.44	30,040
Etchers and engravers	330	5.3	19.11	39,740
Molders, shapers, and casters, except metal and plastic	190	0.6	17.72	36,870
Paper goods machine setters, operators, and tenders ...	690	1.0	18.71	38,910
Helpers--production workers	2,640	1.1	14.45	30,060
Production workers, all other	2,600	1.6	16.22	33,740

Footnotes:

(1) For a complete listing of all detailed occupations in the Cleveland-Elyria, OH Metropolitan Statistical Area, see www.bls.gov/oes/current/oes_17460.htm

(2) Estimates for detailed occupations do not sum to the totals because the totals include occupations not shown separately. Estimates do not include

self-employed workers.

(3) The location quotient is the ratio of the area concentration of occupational employment to the national average concentration. A location quotient greater than one indicates the occupation has a higher share of employment than average, and a location quotient less than one indicates the occupation is less prevalent in the area than average.

(4) Annual wages have been calculated by multiplying the hourly mean wage by a "year-round, full-time" hours figure of 2,080 hours; for those occupations where there is not an hourly mean wage published, the annual wage has been directly calculated from the reported survey data.

(5) Estimate not released.
